

# Eric and Heather

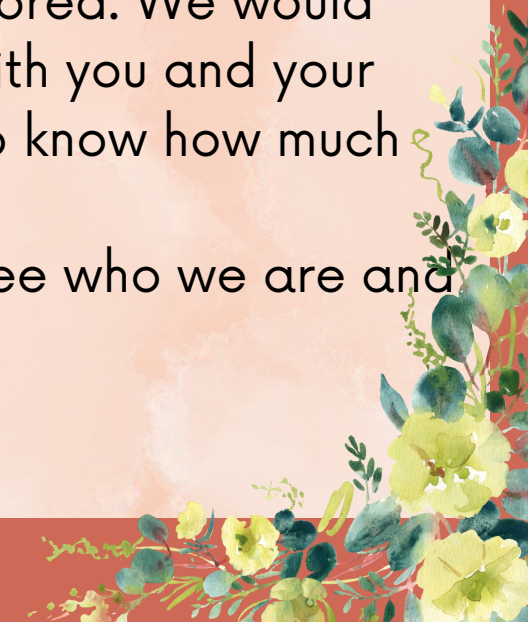

Dear Mom,

Thank you for taking the time to learn about us. We are Eric and Heather. We want to start by telling you how much we respect and admire you and the decision you are making. We cannot imagine what you are going through at this time. We know that adoption is a difficult decision, and we want to thank you for considering our family. Please know that we are praying for you and your little one no matter which decision you make.

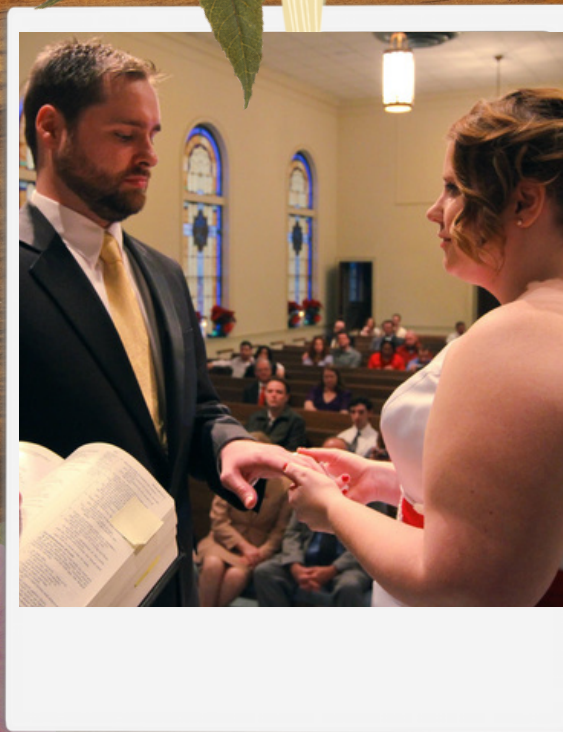

If you were to choose us, our family will provide your child with a kind, loving, fun, and faith filled home. Our son is adopted, and we continue to pray for his birth mother and family every day. If you decide to make an adoption plan, and place with us, we want you to know that we would be so happy and honored. We would love to have an open relationship with you and your family. We always want your child to know how much you love them.

Thank you for taking the time to see who we are and getting to know us a little bit better.

Sincerely,  
Eric and Heather

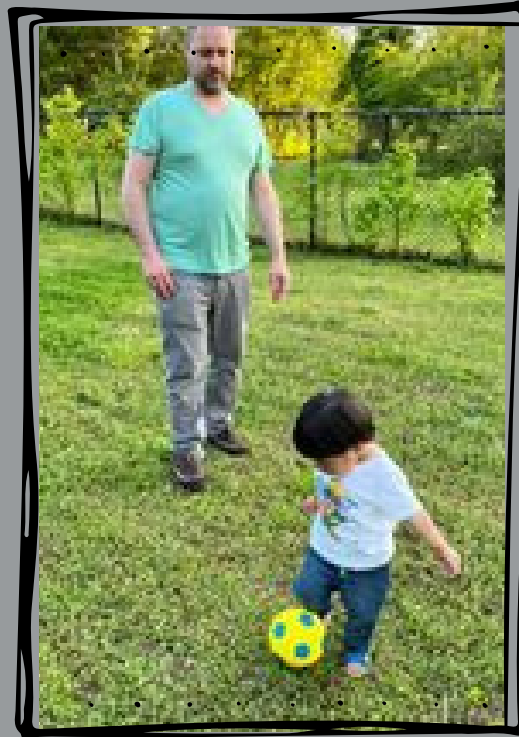

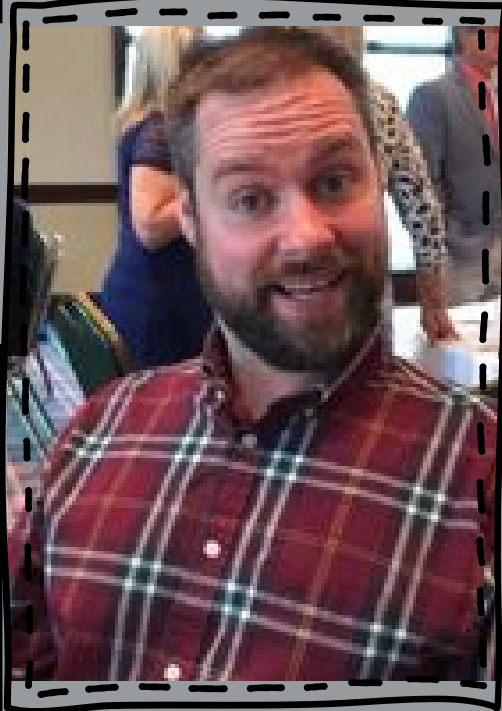

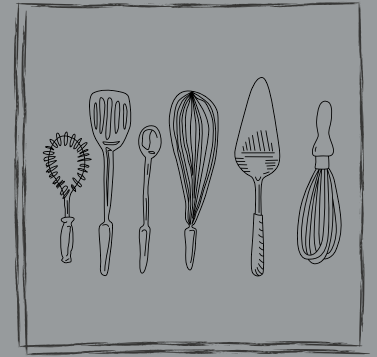

# Our Story

We met in college through some friends, and then we went to the same church on campus. We were friends for a few years before we ever started dating. Once we realized that we were more than friends, we began a relationship. We have been married since December 2011. Even though we are married we are still very much best friends. In 2020 we adopted our son and have been a family of three since then. We are ready to add to our family again through adoption.

We love spending time together and as a family. We have fun just hanging out and enjoying life together.

# Eric

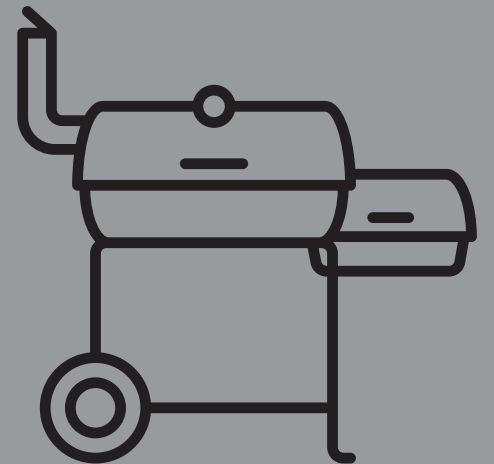

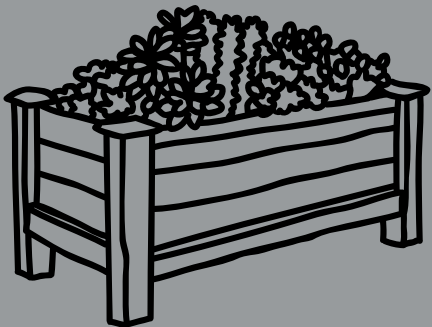

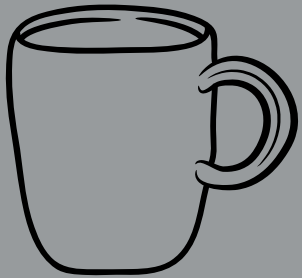

Eric is one of the funniest, kindest, and hardworking people I know. He always makes me smile, even when I don't feel like smiling. He has a compassion for others and believes the best in everyone. He is strong, smart, hardworking, humble, and has a kind heart. He is also silly and has a great sense of humor, even though the dad jokes are coming out more and more with age. He also is always making up lyrics to songs for random situations. Our son is now doing this, and they make up songs together,

Eric loves to cook and is always making new and delicious meals. He especially loves to smoke or grill different kinds of meat. He spends his free time in our garden, he loves to be outdoors. He also loves to play guitar at home and at church.

Eric is an amazing father. I have loved watching him with our son. He loves and cares for our son unconditionally. I know that with another child his love would grow that much more.

# Eric's Family

Eric's family lives about two hours away on a farm. Eric's dad, Michael, is a farmer and gardener. He loves to hunt and fish, raise chickens, and has a large almost year-round vegetable garden. Eric's mom, Pam, is a homemaker who loves to cook, help out in the garden, and spend time with her grandchildren. Eric has one sister who is married with three boys.

Heather's Family

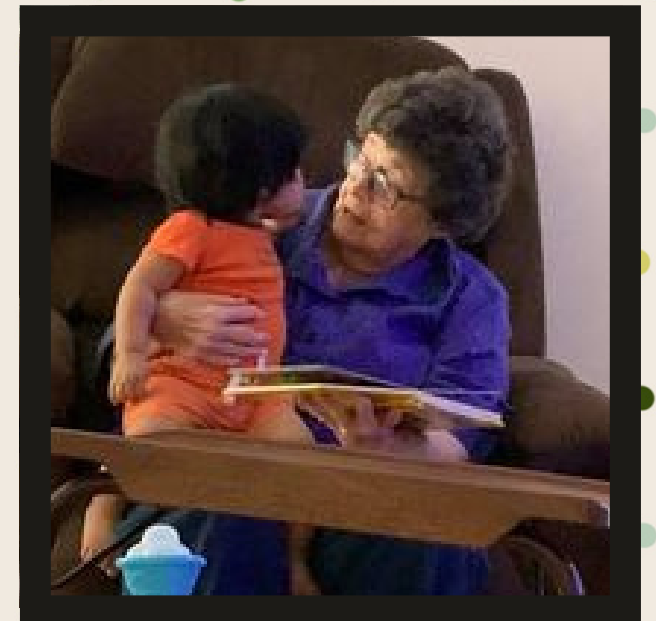

Heather has a tight knit family, with grandparents, aunts, uncles and cousins. Heather's parents live just down the road in a lovely home with a swimming pool and large fenced in yard. Her parents are both retired teachers. She has one brother, he and his wife live about twenty minutes away. With everyone so close we have family meals at least once a month with everyone. Heather's parents also have a lake house, and we enjoy spending time swimming, fishing, and riding the boat together.

# Family Life

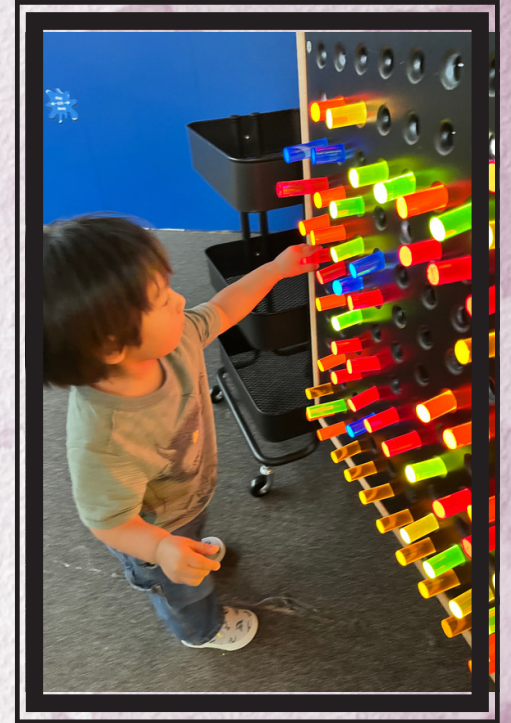

Our life is simple, fun, full of love, and good times. We enjoy lots of different activities together. We love to go to any holiday festivals or carnivals, parades, and many other community events. We are very fortunate to live near several outdoor play areas including a small wildlife park, public gardens, splash pads, a community pool, and several parks with playgrounds. There is also an amazing walking/biking trail that we love using. We also love to go out to eat and hangout with our friends and family.

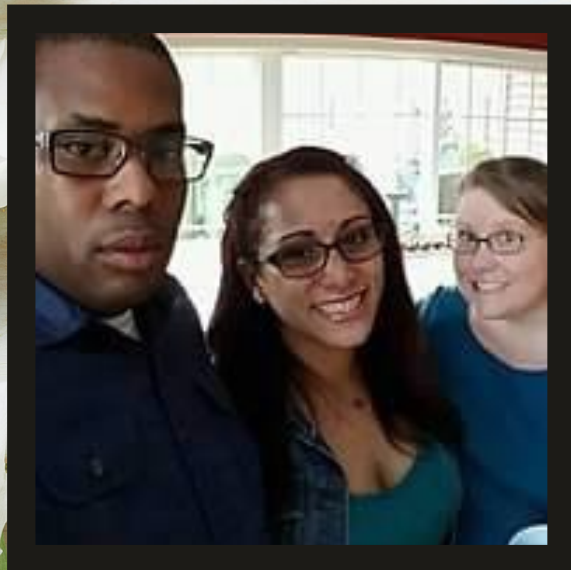

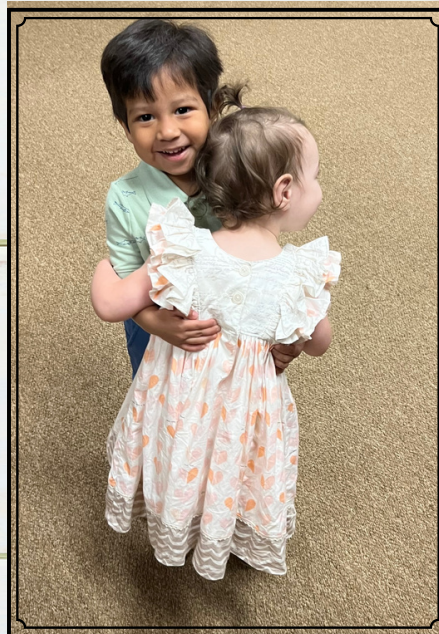

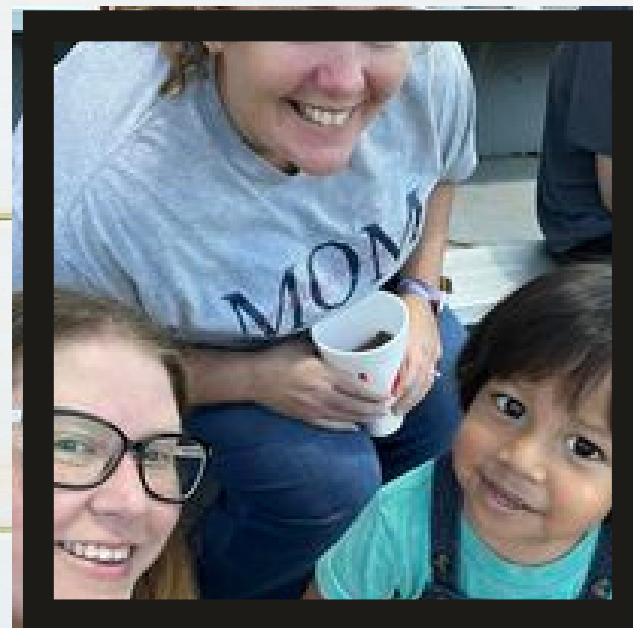

We are blessed to have a diverse group of great friends. We enjoy visiting with our friends and their children. We go shopping, to the movies, to football games, to festivals, and sight-seeing with our friends. Our friends are supportive of us and our plan to adopt again.

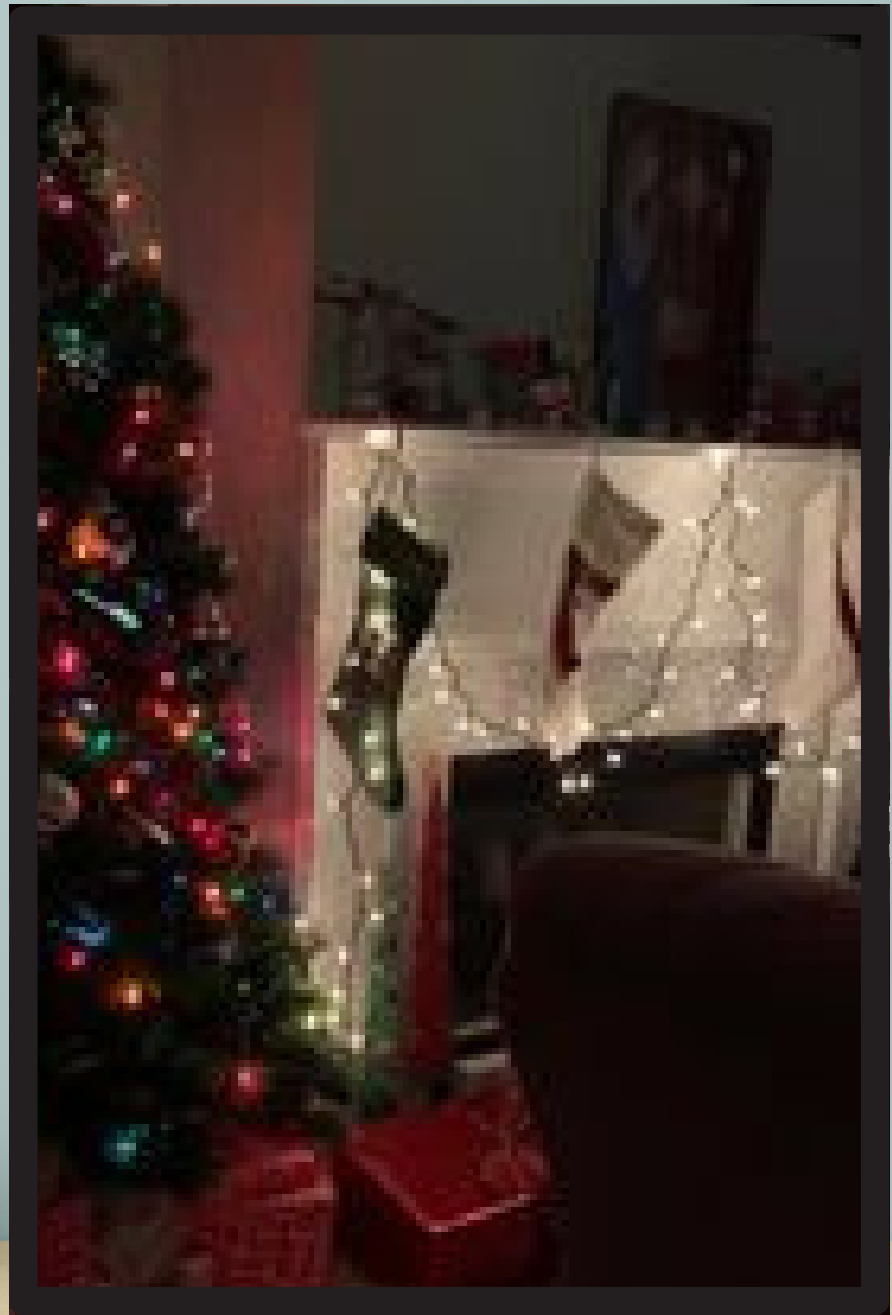

Our house is the perfect size for a family. We have 3 bedrooms, 2 bathrooms and a bonus room. We have a large fenced in backyard with trees and a playset with slides and swings. We spend most evenings outside when the weather is nice. I love to decorate for the different seasons and holidays.

We have longed to grow our family again. We had always talked about adoption even before we were married. When we failed at having biological we knew that our path was adoption.

Adoption has touched our family in amazing ways. We want to thank you for taking the time to look at our family book. We hope that you were able to learn a little bit more about us and our personalities through our pictures and stories. We are praying for you through this journey.
